

Live Action English INTERACTIVE

TPR on a Computer

The first TPR (Total Physical Response) program ever for computer—which means that the user actually interacts with people and objects on the computer screen. With humor and light-hearted fun, it engages the learner in activities for listening, reading, writing, vocabulary, verb forms, and spelling. Using casual, natural and practical language, each unit presents basic vocabulary through a logical sequence of imperatives describing a familiar activity. The program is based on lessons in the classic TPR book *Live Action English*.

1. Good Morning

Eat breakfast

2. Cleaning House

Mop the floor

3. Playing a Cassette

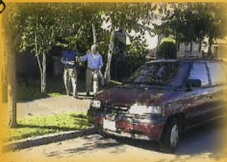

Turn on the radio

4. Grocery Shopping

Weigh them

5. Giving Directions

12. Soup for Lunch

Take a sip

"Not only my favorite CD-ROM... my students' favorite as well... a truly extraordinarily valuable resource in my... classroom."
Leslie E. Clark, City College of San Francisco

"Students from a variety of learning communities—ESL, Developmentally Disabled, Learning Disabled—love the program."
Wanda Sapir, College of Alameda, California
